

Week 4 – Greater Transformation

Leader Note: *This is a great series to encourage students to start the habit of bringing their own Bible every week. Bring it up weekly and continue to encourage and celebrate students who bring it every week.*

What's something that took you a long time to learn to do that other people learned quickly?

Why is changing something about yourself sometimes harder than it sounds?

Do you think people can really change, or do you think people mostly stay the same? Why?

Read Acts 9:1-19 (Break this up as needed to check in and keep engagement). What stands out to you about what happened to Saul?

Why do you think Ananias had a hard time believing God could use Saul?

The teaching compares your life to a house with different rooms. What are some "rooms" of your life where it might be easy to let Jesus in? What are some that might be harder?

What's one area of your life where you would like Jesus to help you grow or change?
