

HOW TO SEE GOD

Week 4

Have you ever had a “mountaintop” experience where you felt connected to God? If so, what was that like?

Do you feel like you can connect with God in the same way every day? Why or why not?

What do you think stands in the way of a high schooler being able to see more of God in the ordinary, everyday moments of life?

Read 1 Kings 19:11-13. How would you feel if you were Elijah in this moment?

Why do you think it’s important to know that God can show up through both a major event and a gentle voice?

What might change about your faith if you believed that seeing God in your life was less complicated than you first thought?

This week, what are some ways you can practice seeing God by...

- a. Looking up?
- b. Looking around?
- c. Looking in?

TRY THIS

Help your students see God at work in the world by calling out how you see God at work in them! Write each student a note or send them an individual text to tell them just one way you see the fruit of God’s Spirit in them.
